# INTERNATIONAL OPERATIONAL ACTIVITIES IN ENVIRONMENTAL MANAGEMENT

*Protect the environment; give your children's children the right to a pollution free planet!®*

### What is MPCEE?

- A dedicated & proactive environmental management consultancy, founded in 1972 by Martin Parr
- 35 years experience in over 100 countries
- An official participating institution of the United Nations Environment Programme – International Environmental Technology Centre (UNEP-IETC) for environmentally sound technologies
- A global operation dealing with issues at grass roots level
- A creator of original projects to ensure that environmental protection and pollution control commence at local level
- A facilitator of joint ventures between environmental projects, technologies and investors
- An assistor to both private and public sectors
- A collaborator with preferred environmental partners in the Middle East, Asia and Africa
- A consultancy always seeking partners
- A promoter of environmental awareness
- A facilitator in the supply and global marketing of environmental products
- Original member of the Agenda 21 team

***Encouraging and assisting all types of businesses, large and small, to appreciate and understand their responsibilities to environmental protection and pollution control***

### MPCEE Expertise

- International operations
- Environmental protection & pollution control
- Sustainable development projects
- Renewable & sustainable energy
- Advanced technologies
- Environmental training courses, seminars, workshops and conferences
- Environmental law, legislation and regulation
- Joint ventures & project financing
- Environmental management systems & ISO14001-2004
- Contingency planning
- Water & waste management
- Hazardous & contaminative spill plans

***Providing advice and a package of products and services to suit all business types***

### MPCEE Globally

We empower quality and excellence through partnerships with like-minded companies worldwide

- Sharing:
  - an awareness of the importance of the environment to life, the world, the planet
  - commitment to a proactive approach to environmental protection
  - goals of sustainable development & usage of natural resources
- Providing complementary skills and experience
- Combining local knowledge with international expertise
- Encouraging two-way transfer of knowledge and skills
- Ensuring a local base for MPCEE's activities, with support and backup and an appropriate platform for MPCEE's operational activities

***Offering clients a total quality solution and competitive service***

### MPCEE Technologies

Providing consultancy, advice and procurement on appropriate environmental technologies, including:

- Dewatering & drying of sludge & slurries
- Waste management & minimisation
- Waste to energy
- Renewable, sustainable and alternative energy

***Ensuring an economic investment as well as environmentally sound***

The onus of responsibility is placed squarely upon the shoulders of governments, the private sector and their employees to ensure that the environment is protected from deliberate or accidental pollution.

***Protect the environment; give your children's children the right to a pollution free planet!®***
